Subject: South Naknek Tribe position on the EPA watershed assessment in BB.
05-25-2012 02:22:03PM.pdf

<<...>> Dennis,

I have been authorized to represent the South Naknek Tribe on all EPA issues. I am cc'ing Don Nielsen, Tribal President for the village of South Naknek for authentication.

Enclosed is a statement by the South Naknek Tribe asking for an extension of time for comments on the watershed assessment. I urge you to consider their request. It raises issues that are of grave concern. The notion that there is not enough time to study the assessment and make meaningful public comments is a fundamental right that cannot be ignored. Thanks Dennis. I will be sending a hard copy early next week. The Tribe has requested that a copy of this letter be sent to their Congressional Delegation as well and I will comply with their wishes.

Sincerely,

Trefon Angasan

South Naknek Tribal Representative to the advisory committee of the EPA working group on the Watershed Assessment.
